

CREATING A MODERN MUSEUM IN A HISTORIC BUILDING

The Seattle Asian Art Museum hasn't been substantially restored or renovated since its inception in 1933. Join us in this long-overdue initiative to renovate a beloved cultural landmark.

CRUCIAL STRUCTURAL UPDATES

Improvements to our heating and cooling systems, as well as seismic upgrades, will help us safeguard our treasured collection so it can be enjoyed for generations to come.

ENHANCEMENTS TO THE BUILDING

A new special exhibition gallery, as well as a dedicated education space, and a state-of-the-art conservation studio will provide more space for the community to gather around art and culture.
